### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3746

### **DETAILED ACTION**

The disclosure is objected to because of the following informalities:

On page 1, line 3 from the bottom, "windward" and "leeward" should more appropriately read --upstream-- and --downstream--.

On page 9, the sentence which commences in line 8 does not read clearly.

On page 9, line 7 from the bottom, the vanes 16 do not suction air through port 9.

Appropriate correction is required.

### ***Drawings***

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: See numeral 8a on page 9, line 15. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 2, it is not clear what is meant by "driving the engine". It is the engine which drives the fan.

Art Unit: 3746

In claim 1, lines 10 and 11, it is not clear what is meant by “in a freely rotatable fashion”. It would appear that the fan is not freely rotatable since it is connected to the engine.

In claim 1, line 12, there is no antecedent basis for “the wall separating the engine case and the blower case.”

In claim 1, lines 13 and 14, it is not clear what structure forms the “inlet port” and the “passage”.

In claim 1, line 15, there are plural antecedents for “the case”.

In claim 2, lines 2 and 3, there are plural antecedents for “the inlet port” (both occurrences).

In claim 2, line 3, it is not clear what “the line” refers to. There is furthermore no antecedent basis for this expression.

In claim 3, line 1, there is no antecedent basis for “the ceiling”.

In claim 3, line 5, “generating” should read --generated--.

Thorough revision of the claims is required in order to render them definite in form according to the statute.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Art Unit: 3746

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1 and 2, as understood, are rejected under 35 U.S.C. 102(e) as being anticipated by Vesper et al.

***Allowable Subject Matter***

Claims 3 and 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
